

# CAPC Membership

One membership fee covers your entire organization

**CAPC membership is one of the most cost-effective ways to standardize practice and improve care for patients living with a serious illness. One membership provides your entire organization with the comprehensive tools, training, and technical assistance necessary to build palliative care capacity and strengthen care quality across teams.**

CAPC is home to countless health care professionals at more than 1,700 member organizations. Members include health systems, hospitals, hospices, home health agencies, medical groups, health plans, and other health organizations.

One membership fee covers your entire organization. And, CAPC membership includes free continuing education credits for the entire staff of your organization, with free ABIM Maintenance of Certification (MOC) credits for physicians.

## **The many advantages that accompany membership include:**

- Clinical online training for all specialties and disciplines caring for people with serious illness
- Free CME/CEs and MOC credits
- Small-group consulting through Virtual Office Hours
- Expert-led Webinars
- Convening with the national palliative care community
- Tools and technical assistance for palliative care program development
- Palliative Care Leadership Centers™ training and mentoring
- Learning pathways and teaching tools
- And much more

Join our vibrant, collaborative network to transform your care of patients living with a serious illness.

Check to see if your organization is a CAPC member, or contact us to learn more.
