

New Jersey Division of Medical Assistance and Health Services Palliative Care Training for Physicians and Physician Associates

This Learning Pathway will help physicians and physician associates (PAs) meet new NJ DMAHS state requirements for palliative care training. This pathway provides 12 hours of training with credits for licensure renewal.

Pain & Symptom Management

Course 3: Matching Treatment to Pain Type

Gain an overview of pharmacologic and nonpharmacologic pain treatments, including risks and benefits, and learn how to match the analgesic to pain type.

Anxiety

After completing this course, learners will be equipped with evidence-based strategies to identify and treat anxiety in patients living with a serious illness.

Depression

After completing this course, learners will have the tools to accurately identify and treat depression in patients living with a serious illness.

Opioid Safety

Course 4: Prescribing an Opioid

Learn how to decide on an appropriate opioid, route of delivery, and dose, and understand how to prescribe for incident and breakthrough pain.

Course 6: Creating a Pain Treatment Plan and Monitoring Effectiveness

Learn to develop a pain treatment plan with realistic goals and proper documentation, and implement universal precautions to help with the risk of opioid use disorder.

Course 8: Problems with Opioid Prescribing: Is it an Opioid Use Disorder?

Learn how to identify and diagnose opioid use disorder (OUD) and practice communicating with patients about OUD and pain management.

Psychosocial Support

Supporting the Caregivers of People with Serious Illness

This course offers tools and guidance for assessing and addressing the needs of caregivers of people with serious illness.

Advance Care Planning

Care Planning

Learn techniques to help patients and their caregivers plan for the future, both during the early stages of a serious illness and as a disease progresses.

Interdisciplinary Teamwork

Coordinating Care and Planning Ahead

Guidance for all clinicians on improving communication and ensuring smooth transitions of care for patients living with serious illness.
